### **Directions for sending in a sample of Fertiliser/ Compost/ Material:**

- Place fertiliser/ Compost/ Material in sample bag.
- Ensure each sample has min. weight of 250 grams (or 250ml for liquid) and place in express postbag along with completed form and payment. **However if Organic tests are required (eg. OC/OP, Bio-hazard Indicators) we require 600grams. Please ensure the sample is posted on the day of sampling.**
- Sign the outside of the express post bag and mail to us in either a yellow express post box, or submit at your local post office the day of sampling.
